

Corporate Culture Pros

Lisa Jackson & Gerry Schmidt

Culture change keynotes and management seminars that work in the real world!

Audio Visual Setup

Equipment

- Wireless lavalier microphone + spare battery
- Flipchart + fresh markers
- LCD projector + screen

If using image magnification and/or videotaping, please use as much house light as possible.

Room Setup

The following suggestions are important not just for the effectiveness of our presentation, but for the overall success of your event:

- The distance from the first row of seats/tables to the stage should be no more than 10 feet.
- Whether you have tables or just chairs available, our preference is that they be arranged theatre style in a semi-circle – this helps with audience visibility.
- The ideal stage/riser height for audiences of up to 200 people is 6"-12"; for audiences of more than 200 people, 12"-24" in height is appropriate.

Lisa and Gerry utilize movement to connect with the audience. They will move from left to right across the stage and occasionally out into the audience. If possible, please take this into consideration when arranging for stage set and audio logistics.

If you have any questions, please call us at (303) 904-8193.

Thanks and we look forward to working with your team!
